**Paoli Introduces Contemporary Lounge Seating**

**ORLEANS, INDIANA, June 2010** – The new 4 Square series from Paoli offers a soft contemporary look in lounge seating to enhance lobbies, conference areas, waiting areas and private offices. The comprehensive series offers distinctive choices for guest chairs, lounge chairs, settees, sofas, benches and tables.

The 4 Square series provides seating comfort while enabling specifiers to tailor each piece to suit individual preferences and a project's specific aesthetic needs. Accent materials include metal, wood, maple veneer, sketch face veneer, fabric and leather.

According to product designer Ken Reinhard, of Ken Reinhard Design Associates, these materials may be used in combinations to create lounge seating with its own sophisticated personality. 4 Square can be individualized by selecting metal or wood leg frames, along with end panel inserts in fabric, leather or wood panels in maple, Anigre, Sapele and Madrone Burl.

4 Square meets the criteria of the ANSI/BIFMA Furniture Emissions Standards. As tested and certified under the SCS Indoor Advantage GOLD protocol, these chairs were subjected to one of the most rigorous indoor air quality standards in the United States. 4 Square is certified level™ 1 in compliance with the BIFMA Furniture Sustainability Standard.

Specializing in office and contract furnishings, Paoli has been a manufacturer of fine wood furniture since 1926. An HNI company, Paoli's mission is to create long-term product value while exceeding customer expectations. Key to the success of this mission is business simplification, continuous improvement, process and product innovation, and integrity.
